

BAJRANG INTERNATIONAL SCHOOL

Empowering Minds, Building Futures.

**EMPOWERING MINDS.
BUILDING FUTURES.**

“A place where discipline, values,
and innovation shape young minds.”

FROM CHAIRMAN'S DESK

Bajrang International School (BIS)

Dear parents, students and members of the BIS family, it is with immense joy and a deep sense of responsibility that I welcome you to the inaugural academic year of Bajrang International School. This institution is not just a new building or a new name — it is a long-cherished dream come true, born from a clear purpose: to offer an education that is ready for the 21st century, yet rooted in timeless values. Today's world is changing faster than ever. Technology, information and opportunities are all around us. In such a world, true education cannot be limited to textbooks and examinations. It must shape: sharp minds — with critical thinking and problem-solving skills; strong hearts — with empathy, honesty and emotional strength; steady character — with a clear moral compass and sense of responsibility. At BIS, we believe education must build competence, character and conscience. Our mission at BIS is to create a vibrant learning ecosystem where every student is: encouraged to ask questions, supported to explore their strengths, empowered to become self-reliant, confident and responsible global citizens. To achieve this, we are committed to:

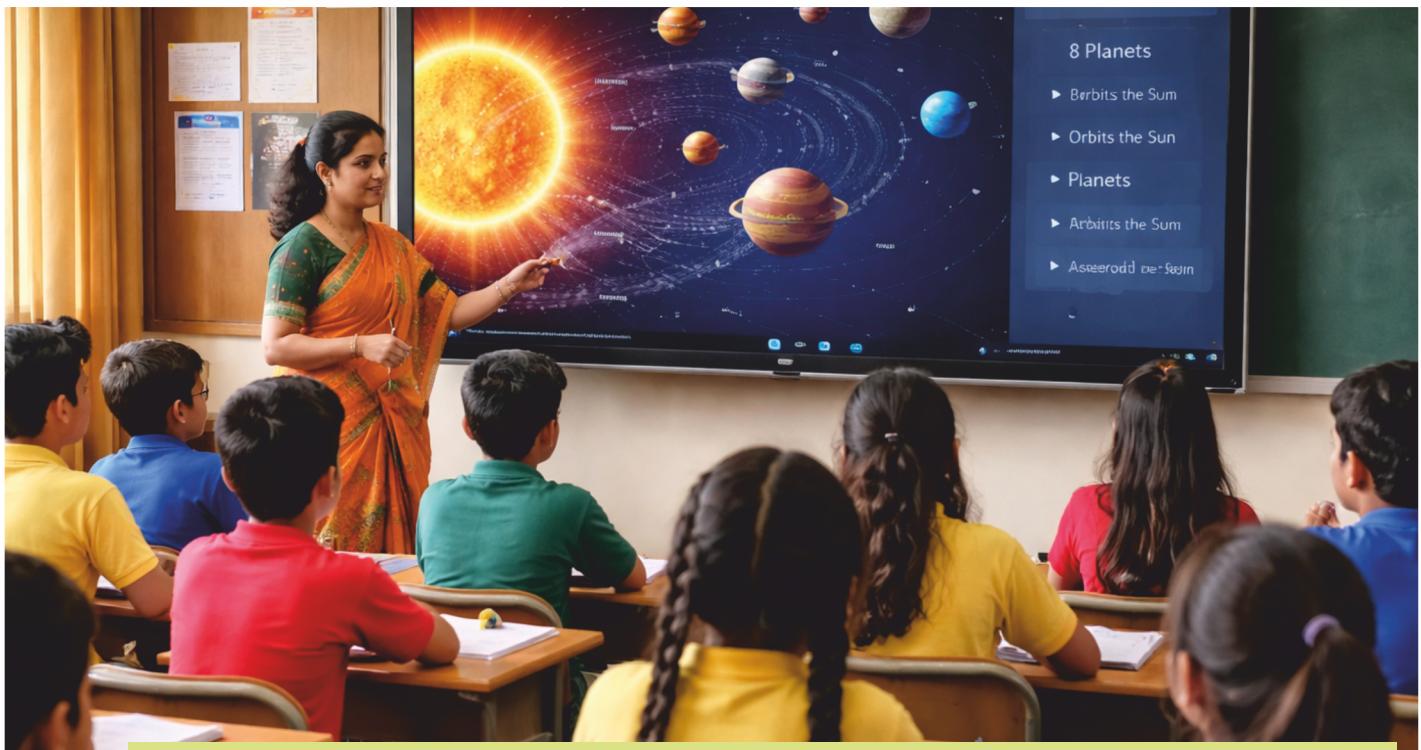

1. Quality education blending strong academic foundations with real-life applications, so that our students are not only exam-ready, but life-ready.
2. A culture of innovation using modern teaching methods, meaningful technology and creative learning spaces to foster curiosity, creativity and courage to try new things.
3. Holistic development balancing academics with sports, arts, values, life skills and leadership opportunities, so every child grows in body, mind and spirit.
4. An inclusive community creating a school environment where every child feels seen, safe and valued, regardless of background. Diversity, equity and opportunity are not slogans for us, but daily practices. Our teachers are not just "subject experts." They are mentors, guides and role models, committed to noticing each child, supporting their struggles and celebrating their progress. A shared journey: school, students and parents to our respected parents and guardians: we see education as a partnership, not a one-way service. Your trust is our biggest responsibility. We invite you to be active partners — sharing your feedback, participating in school life and supporting your child's efforts at home. Together, we can create an environment where every child truly thrives. As we begin this beautiful journey with our first batch of students, I look ahead with confidence and hope. The hard work we put in today — in classrooms, at home and within ourselves — will become the triumphs of tomorrow. I have no doubt that the students of Bajrang International School will emerge as sensitive leaders, lifelong learners and compassionate human beings, ready to make a meaningful difference in the world. Welcome to the Bajrang International School family. Let us learn, grow and build a better future — together. With best wishes for a joyful, productive and successful academic year.

Chairman
Mr. Pappu Yadav
Bajrang International School

About the School

Bajrang International School is a progressive educational institution committed to delivering quality education blended with discipline, values, and modern teaching methodologies. Our goal is to nurture confident, responsible, and future-ready learners in a safe and inspiring environment.
